SUMMARY SECTION

First State Global Listed Infrastructure Fund

Investment Objective

The First State Global Listed Infrastructure Fund (the “Fund”) seeks to achieve growth of capital and inflation-protected income.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

<i>SHAREHOLDER FEES</i> (fees paid directly from your investment)	<u>Class I</u>
Redemption Fee (as a percentage of amount redeemed on shares held for 30 days or less)	2.00%
<i>ANNUAL FUND OPERATING EXPENSES</i> (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.80%
Other Expenses (includes Shareholder Servicing Plan Fee) ⁽¹⁾	2.17%
Shareholder Servicing Plan Fee	<u>0.10%</u>
Total Annual Fund Operating Expenses	2.97%
Less: Fee Waiver and Expense Reimbursement ⁽²⁾	<u>-1.88%</u>
Total Annual Fund Operating Expenses After Fee Waiver and Expense Reimbursement	<u>1.09%</u>

⁽¹⁾ Other expenses are based on estimated amounts for the current fiscal year.

⁽²⁾ First State Investments (US) LLC (the “Adviser”) has contractually agreed to waive a portion or all of its management fees and/or pay Fund expenses (excluding acquired fund fees and expenses (“AFFE”), interest, taxes and extraordinary expenses) in order to limit the Total Annual Fund Operating Expenses to 1.09% of average daily net assets of the Fund’s Class I shares (the “Expense Cap”). The Expense Cap will remain in effect through at least February 27, 2018, and may be terminated only by the Trust’s Board of Trustees (the “Board”). The Adviser may request recoupment of previously waived fees and paid expenses from the Fund for three years from the date they were waived or paid, subject to the Expense Cap.

Example. This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same (taking into account the Expense Cap only in the first year). Although your actual costs may be higher or lower, based on these assumptions your costs would be:

Class I	<u>1 Year</u>	<u>3 Years</u>
	\$111	\$741

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. As the Fund is new, it does not have any portfolio turnover as of the date of this Prospectus.

Principal Investment Strategy

The Fund seeks to achieve its investment objective by investing primarily in securities of publicly traded infrastructure companies. The Fund defines infrastructure companies as those companies that derive at least 65% of their operating earnings from the ownership or operation of infrastructure assets. The Fund defines infrastructure assets as the physical structures, networks and systems of transportation, energy,

water, waste, and communication. The Fund typically invests in companies that can adjust the fees it charges customers and counterparties in line with inflation, in accordance with contractual terms or regulation, or through renegotiation due to the essential nature and pricing power of infrastructure assets. Under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in publicly traded equity securities of infrastructure companies listed on a domestic or foreign exchange, throughout the world (including emerging markets), including the United States. As part of the 80%, the Fund will invest at least 40% of net assets, or if conditions are not favorable, invest at least 30% of its net assets, in publicly traded securities of infrastructure companies whose primary operations or principal trading market is in a foreign market, and that are not subject to the requirements of the U.S. securities laws, markets and accounting requirements, *i.e.*, foreign securities. The Fund considers an issuer's "primary operations" to be in a foreign market if the issuer (i) is organized under the laws of that country, or (ii) derives at least 50% of its revenues or profits from goods produced or sold, investments made, services performed, or has at least 50% of its assets located within that country. Under normal circumstances, the Fund will maintain exposure to securities of infrastructure companies in the United States and in at least three countries outside the United States.

The Fund seeks to invest in the securities of companies which have high barriers to entry, strong pricing power, sustainable growth and predictable cash flows. The majority of infrastructure securities in which the Fund typically invests are within the following Global Industry Classification Standard ("GICS") sectors:

- 1) oil and gas storage and transportation;
- 2) airport services;
- 3) highways and rail tracks;
- 4) marine ports and services; and
- 5) multi/electric/gas/water utilities.

However, given the evolving nature of the global listed infrastructure market, the Fund may hold securities outside of the above sectors as long as they meet the Fund's definition of an infrastructure company.

Equity securities in which the Fund may invest include, but are not limited to, common and preferred stock of companies of any size market capitalizations. The Fund may invest up to 75% of its net assets in foreign securities, including but not limited to depositary receipts, such as American Depositary Receipts ("ADRs"), European Depositary Receipts ("EDRs") and Global Depositary Receipts ("GDRs"). The Fund may also invest in stapled securities to gain exposure to infrastructure companies in Australia. A stapled security, which is widely used in Australia, is a security that is comprised of two parts that cannot be separated from one another, a unit of a trust and a share of a company. The Fund may also invest in initial public offerings ("IPOs").

As part of the 80% of the Fund's investments in publicly traded equity securities of infrastructure companies, the Fund may invest up to 30% of its net assets in real estate investment trusts ("REITs") listed on a domestic or foreign exchange and up to 20% of its net assets in limited partnerships and master limited partnerships ("MLPs") listed on a domestic or foreign exchange. All REITs and MLPs that the Fund may invest in must meet the Fund's definition of an infrastructure company.

As a fundamental policy, the Fund will invest more than 25% of its net assets in the securities issued by companies operating in the infrastructure industry.

The Fund's investment strategy is based on active, bottom-up stock selection which seeks to identify mispricing. The strategy seeks to minimize risk through on-the-ground research, a focus on quality, and sensible portfolio construction.

Colonial First State Asset Management (Australia) Limited ("CFSAMA" or the "Sub-Adviser"), an affiliate of the Adviser, has been engaged as sub-adviser to manage the investments of the Fund. CFSAMA is an Australian domiciled investment adviser regulated by the Australian Securities and Investments Commission and is registered with the SEC.

Principal Investment Risks

Losing a portion of your investment is a risk of investing in the Fund. The following additional risks could affect the value of your investment:

- *Management Risk.* The Fund is an actively managed portfolio. The Sub-Adviser's management practices and investment strategies might not produce the desired results. The Sub-Adviser may be incorrect in its assessment of a stock's appreciation potential.
- *General Market Risk.* Economies and financial markets throughout the world are becoming increasingly interconnected, which increases the likelihood that events or conditions in one country or region will adversely impact markets or issuers in other countries or regions.
- *Equity Risk.* The equity securities held by the Fund may experience sudden, unpredictable drops in value or long periods of decline in value that could affect the value of the Fund's shares and the total return on your investment.
- *Infrastructure Companies Risk.* Infrastructure companies may be subject to a variety of factors that may adversely affect their business or operations, including high interest costs in connection with capital construction programs, high leverage, costs associated with environmental and other regulations, the effects of economic slowdown, surplus capacity, increased competition from other providers of services, uncertainties concerning the availability of fuel at reasonable prices, the effects of energy conservation policies and other factors. Some of the specific risks that infrastructure companies may be particularly affected by, or subject to, include the following: regulatory risk, technology risk, regional or geographic risk, natural disasters risk, through-put risk, project risk, strategic asset risk, operation risk, customer risk, interest rate risk, inflation risk and financing risk.

In particular, the operations of infrastructure projects are exposed to unplanned interruptions caused by significant catastrophic events, such as cyclones, earthquakes, landslides, floods, explosion, fire, terrorist attack, major plant breakdown, pipeline or electricity line rupture or other disasters. Operational disruption, as well as supply disruption, could adversely impact the cash flows available from these assets.

Further, national and local environmental laws and regulations affect the operations of infrastructure projects. Standards are set by these laws, and regulations are imposed regarding certain aspects of health and environmental quality, and they provide for penalties and other liabilities for the violation of such standards, and establish, in certain circumstances, obligations to remediate and rehabilitate current and former facilities and locations where operations are, or were, conducted. These laws and regulations may have a detrimental impact on the financial performance of infrastructure projects.

- *Concentration Risk.* Since the securities of companies in the same industry or group of industries will comprise a significant portion of the Fund's portfolio, the Fund will be more significantly impacted by adverse developments in such industries than a fund that invests in a wider variety of industries.
- *Foreign Securities Risk.* Foreign securities are subject to special risks. Foreign securities can be more volatile than domestic (U.S.) securities. Securities markets of other countries are generally

smaller than U.S. securities markets. Many foreign securities may be less liquid than U.S. securities, which could affect the Fund's investments. Foreign securities may be adversely affected by political instability; changes in currency exchange rates; inefficient markets and higher transaction costs; foreign economic conditions; or inadequate or different regulatory and accounting standards.

- *Emerging Markets Risk.* Emerging markets are markets of countries in the initial stages of industrialization and generally have low per capita income. In addition to the risks of foreign securities in general, emerging markets are generally more volatile, have relatively unstable governments, social and legal systems that do not protect shareholders, economies based on only a few industries and securities markets that are substantially smaller, less liquid and more volatile with less government oversight than those of more developed countries.
- *Foreign Currency Risk.* Currency movements may negatively impact value even when there is no change in value of the security in the issuer's home country.
- *Depository Receipt Risk.* Depository receipts may be purchased through "sponsored" or "unsponsored" facilities. A sponsored facility is established jointly by the issuer of the underlying security and a depository, whereas a depository may establish an unsponsored facility without participation by the issuer of the depository security. Holders of unsponsored depository receipts generally bear all the costs of such facilities and the depository of an unsponsored facility frequently is under no obligation to distribute shareholder communications received from the issuer of the deposited security or to pass through voting rights to the holders of such receipts of the deposited securities. In addition, investment in ADRs, EDRs and GDRs may be less liquid than the underlying shares in their primary trading market.
- *Stapled Securities Risk.* As discussed above, a stapled security is comprised of two different securities—a unit of a trust and a share of a company—that are "stapled" together and treated as a unit at all times, including for transfer or trading. The characteristics and value of a stapled security are influenced by both underlying securities. The listing of stapled securities on a domestic or foreign exchange does not guarantee a liquid market for stapled securities.
- *Real Estate Investment Trust (REIT) Risk.* Investments in REITs will be subject to the risks associated with the direct ownership of real estate and annual compliance with tax rules applicable to REITs. Risks commonly associated with the direct ownership of real estate include fluctuations in the value of underlying properties, defaults by borrowers or tenants, changes in interest rates and risks related to general or local economic conditions. In addition, REITs have their own expenses, and the Fund will bear a proportionate share of those expenses.
- *Limited Partnership and MLP Risk.* Investments in securities (units) of partnerships, including MLPs, involve risks that differ from an investment in common stock. Holders of the units of limited partnerships have more limited control and limited rights to vote on matters affecting the partnership. Certain tax risks are associated with an investment in units of limited partnerships. In addition, conflicts of interest may exist between common unit holders, subordinated unit holders and the general partner of a limited partnership, including a conflict arising as a result of incentive distribution payments. In addition, investments in certain investment vehicles, such as limited partnerships and MLPs, may be illiquid. Such partnership investments may also not provide daily pricing information to their investors, which will require the Fund to employ fair value procedures to value its holdings in such investments.
- *Initial Public Offering Risk.* The market value of IPO shares may fluctuate considerably due to factors such as the absence of a prior public market, unseasoned trading, the small number of shares available for trading and limited information about the issuer. The purchase of IPO shares may involve high transaction costs. IPO shares are subject to market risk and liquidity risk.

- *Small- and Medium-Sized Companies Risk.* Small- and medium-sized companies often have less predictable earnings, more limited product lines, markets, distribution channels or financial resources and the management of such companies may be dependent upon one or few key people. The market movements of equity securities of small- and medium-sized companies may be more abrupt and volatile than the market movements of equity securities of larger, more established companies or the stock market in general and small-sized companies in particular, are generally less liquid than the equity securities of larger companies.
- *Interest Rate Risk.* There is a risk that fixed income-like securities could decline in value because of changes in interest rates. It is likely there will be less governmental action in the near future to maintain low interest rates. The potential negative impact on fixed income-like securities from the resulting rate increases for that and other reasons could be swift and significant.
- *New Fund Risk.* The Fund is new with no operating history and there can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Board may determine to liquidate the Fund.

Performance

When the Fund has been in operation for a full calendar year, performance information will be shown here. Updated performance information will be available on the Fund’s website at www.firststatefunds.com or by calling the Fund toll-free at 1-888-898-5040.

Management

Investment Adviser. First State Investments (US) LLC, is the Fund’s investment adviser.

Investment Sub-Adviser. Colonial First State Asset Management (Australia) Limited is the Fund’s investment sub-adviser.

Sub-Adviser Portfolio Managers. Peter Meany (*Head of Global Listed Infrastructure*) and Andrew Greenup (*Deputy Head of Global Listed Infrastructure*) are the Sub-Adviser’s portfolio managers responsible for the day-to-day management of the Fund. They have managed the Fund since its inception in 2017.

Purchase and Sale of Fund Shares

You may purchase or redeem Fund shares on any business day by written request via mail (First State Global Listed Infrastructure Fund, c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, WI 53201-0701), by telephone at 1-888-898-5040, by wire transfer or through a financial intermediary. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the intermediary directly. The minimum initial and subsequent investment amounts are shown below.

Types of Accounts	<u>To Open Your Account</u>	<u>To Add to Your Account</u>
<i>Class I</i> Regular Accounts	\$1 million	Any Amount

Tax Information

The Fund’s distributions are taxable, and will be taxed as ordinary income or capital gains, unless you invest through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account (“IRA”). Distributions on investments made through tax-deferred arrangements may be taxed later upon withdrawal of assets from those accounts.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary, the Fund and/or the Adviser may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Principal Investment Strategies of the Fund

The Fund seeks to achieve its investment objective by investing primarily in securities of publicly traded infrastructure companies. The Fund defines infrastructure companies as those companies that derive at least 65% of their operating earnings from the ownership or operation of infrastructure assets. The Fund defines infrastructure assets as the physical structures, networks and systems of transportation, energy, water, waste, and communication. The Fund typically invests in companies that can adjust the fees it charges customers and counterparties in line with inflation, in accordance with contractual terms or regulation, or through renegotiation due to the essential nature and pricing power of infrastructure assets. Under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in publicly traded equity securities of infrastructure companies listed on a domestic or foreign exchange, throughout the world (including emerging markets), including the United States. As part of the 80%, the Fund will invest at least 40% of net assets or if conditions are not favorable, invest at least 30% of its net assets, in publicly traded securities of infrastructure companies whose primary operations or principal trading market is in a foreign market, and that are not subject to the requirements of the U.S. securities laws, markets and accounting requirements, *i.e.*, foreign securities. The Fund considers an issuer's "primary operations" to be in a foreign market if the issuer (i) is organized under the laws of that country, or (ii) derives at least 50% of its revenues or profits from goods produced or sold, investments made, services performed, or has at least 50% of its assets located within that country. Under normal circumstances, the Fund will maintain exposure to securities of infrastructure companies in the United States and in at least three countries outside the United States. There are no geographic limits on the Fund's investments, and the Fund may invest without limit in securities of companies located both in the U.S. and abroad and in developed or emerging markets.

The Fund seeks to invest in the securities of companies which have high barriers to entry, strong pricing power, sustainable growth and predictable cash flows. The majority of infrastructure securities in which the Fund typically invests are within the following GICS sectors:

- 1) oil and gas storage and transportation;
- 2) airport services;
- 3) highways and rail tracks;
- 4) marine ports and services; and
- 5) multi/electric/gas/water utilities.

However, given the evolving nature of the global listed infrastructure market, the Fund may hold securities outside of the above sectors as long as they meet the Fund's definition of an infrastructure company.

Equity securities in which the Fund may invest include, but are not limited to, common and preferred stock of companies of any size market capitalizations. The Fund may invest up to 75% of its net assets in foreign securities, including but not limited to depositary receipts, such as ADRs, EDRs and GDRs. The Fund may also invest in stapled securities to gain exposure to many infrastructure companies in Australia. A stapled security, which is widely used in Australia, is a security that is comprised of two parts that cannot be separated from one another, a unit of a trust and a share of a company. The resulting security is influenced by both parts, and must be treated as one unit at all times, such as when buying or selling a security. The Fund may also invest in IPOs.

As part of the 80% of the Fund's investments in publicly traded equity securities of infrastructure companies, the Fund may invest up to 30% of its net assets in REITs listed on a domestic or foreign exchange and up to 20% of its net assets in limited partnerships and MLPs listed on a domestic or foreign exchange. All REITs and MLPs that the Fund may invest in must meet the Fund's definition of an infrastructure company.

As a fundamental policy, the Fund will invest more than 25% of its net assets in the securities issued by companies operating in the infrastructure industry. The Fund will provide at least 60 days' prior written notice to shareholders of a change in the Fund's fundamental policy.

The Fund's investment strategy is based on active, bottom-up stock selection which seeks to identify mispricing. The strategy seeks to minimize risk through on-the-ground research, a focus on quality, and sensible portfolio construction.

Colonial First State Asset Management (Australia) Limited, an affiliate of the Adviser, has been engaged as sub-adviser to manage the investments of the Fund. CFSAMA is an Australian domiciled investment adviser regulated by the Australian Securities and Investments Commission and registered with the SEC.

The Sub-Adviser integrates a rigorous stock selection process with strict portfolio management risk controls. Securities within the Fund's wider investment universe are screened for infrastructure characteristics, thoroughly analyzed and then ranked by value and quality. This provides an indication of the portfolio holdings, as derived from a purely bottom-up basis.

The portfolio is then constructed by the portfolio managers, based primarily on these rankings. Regional and sector risks are also monitored as a risk management overlay. This aims to ensure appropriate portfolio diversification along both country and sector lines.

The Sub-Adviser's sell discipline is driven by a security moving to a lower position within their value and quality ranking system. This can occur through:

- A rise in a company's share price, leading to decreased upside potential and a lower value ranking.
- A downgrade in a company's discounted cash flow valuation, leading to lower value ranking.
- A downgrade of a company's quality score, leading to a lower quality ranking.

Peer review of the security selection process ensures the team is not locked into high conviction buys or sells but rather identifies market inefficiency and sells/buys the security before the opportunity has closed.

The Fund may temporarily depart from its principal investment strategies by making short-term investments in cash, cash equivalents, high-quality, short-term debt securities and money market instruments for temporary defensive purposes in response to adverse market, economic, political or other conditions. This may result in the Fund not achieving its investment objective during that period.

Principal Risks

The principal risks of investing in the Fund that may adversely affect the Fund's net asset value ("NAV") or total return were previously summarized and are discussed in more detail below. There can be no assurance that Fund will achieve its investment objective.

- *Management Risk.* Management risk describes a Fund's ability to meet investment objectives based on the Sub-Adviser's success or failure at implementing investment strategies for the Fund. The value of your investment is subject to the effectiveness of the Sub-Adviser's research, analysis, asset

allocation among portfolio securities and ability to identify a stock's appreciation potential. If the Sub-Adviser's investment strategies do not produce the expected results, your investment could be diminished.

- *General Market Risk.* Economies and financial markets throughout the world are becoming increasingly interconnected, which increases the likelihood that events or conditions in one country or region will adversely impact markets or issuers in other countries or regions.
- *Equity Risk.* The Fund is designed for long-term investors who can accept the risks of investing in a portfolio with significant common stock holdings. Common stocks tend to be more volatile than other investment choices such as bonds and money market instruments. The value of the Fund's shares will fluctuate as a result of the movement of the overall stock market or of the value of the individual securities held by the Fund, and you could lose money. The equity securities held by the Fund may experience sudden, unpredictable drops in value or long periods of decline in value that could affect the value of the Fund's shares and the total return on your investment. This fluctuation may occur because of factors that affect the securities market generally, such as adverse changes in: economic conditions, the general outlook for corporate earnings, interest rates, or investor sentiment. Equity securities may also lose value because of factors affecting an entire industry or sector, such as increases in production costs, or factors directly related to a specific company, such as decisions made by its management.
- *Infrastructure Companies Risk.* Infrastructure companies may be subject to a variety of factors that may adversely affect their business or operations, including high interest costs in connection with capital construction programs, high leverage, costs associated with environmental and other regulations, the effects of economic slowdown, surplus capacity, increased competition from other providers of services, uncertainties concerning the availability of fuel at reasonable prices, the effects of energy conservation policies and other factors. Some of the specific risks that infrastructure companies may be particularly affected by, or subject to, include the following: regulatory risk, technology risk, regional or geographic risk, natural disasters risk, through-put risk, project risk, strategic asset risk, operation risk, customer risk, interest rate risk, inflation risk and financing risk.

In particular, the operations of infrastructure projects are exposed to unplanned interruptions caused by significant catastrophic events, such as cyclones, earthquakes, landslides, floods, explosion, fire, terrorist attack, major plant breakdown, pipeline or electricity line rupture or other disaster. Operational disruption, as well as supply disruption, could adversely impact the cash flows available from these assets.

Further, national and local environmental laws and regulations affect the operations of infrastructure projects. Standards are set by these laws and regulations are imposed regarding certain aspects of health and environmental quality, and they provide for penalties and other liabilities for the violation of such standards, and establish, in certain circumstances, obligations to remediate and rehabilitate current and former facilities and locations where operations are, or were, conducted. These laws and regulations may have a detrimental impact on the financial performance of infrastructure projects.

Other factors that may affect the operations of infrastructure companies include difficulty in raising capital in adequate amounts on reasonable terms in periods of high inflation and unsettled capital markets, inexperience with and potential losses resulting from a developing deregulatory environment, increased susceptibility to terrorist acts or political actions, and general changes in market sentiment towards infrastructure assets.

- *Concentration Risk.* Since the securities of companies in the same industry or group of industries will comprise a significant portion of the Fund's portfolio, the Fund will be more significantly impacted by adverse developments in such industries than a fund that invests in a wider variety of industries.

- *Foreign Securities Risk.* Investments in foreign securities are subject to special risks in addition to those of U.S. issuers. Foreign securities can be more volatile than domestic (U.S.) securities. Securities markets of other countries are generally smaller than U.S. securities markets. Many foreign securities may be less liquid than U.S. securities, which could affect the Fund's investments. The exchange rates between U.S. dollar and foreign currencies might fluctuate, which could negatively affect the value of the Fund's investments.

Foreign securities are also subject to higher political, social and economic risks than those of U.S. issuers. These risks include, but are not limited to, a downturn in the country's economy, excessive taxation, political instability, and expropriation of assets by foreign governments. Compared to the U.S., foreign governments and markets often have less stringent accounting, disclosure, and financial reporting requirements.

- *Emerging Markets Risk.* The Fund's investments in emerging market countries are subject to all of the risks of foreign investing generally, and have additional heightened risks. These risks include less social, political and economic stability; smaller securities markets with low or nonexistent trading volume and greater illiquidity and price volatility; more restrictive national policies on foreign investment, including restrictions on investment in issuers or industries deemed sensitive to national interests; less transparent and established taxation policies; less developed regulatory or legal structures governing private and foreign investment; less financial sophistication, creditworthiness, and/or resources possessed by, and less government regulation of, the financial institutions and issuers with which the Fund transacts; less government supervision and regulation of business and industry practices, stock exchanges, brokers and listed companies than in the U.S.; greater concentration in a few industries resulting in greater vulnerability to regional and global trade conditions; higher rates of inflation and more rapid and extreme fluctuations in inflation rates; greater sensitivity to interest rate changes; increased volatility in currency exchange rates and potential for currency devaluations and/or currency controls; greater debt burdens relative to the size of the economy; more delays in settling portfolio transactions and heightened risk of loss from share registration and custody practices; and less assurance that recent favorable economic developments will not be slowed or reversed by unanticipated economic, political or social events in such countries. Because of these risk factors, the Fund's investments in developing market countries are subject to greater price volatility and illiquidity than investments in developed markets.
- *Foreign Currency Risk.* When the Fund buys or sells securities on a foreign stock exchange, the transaction is undertaken in the local currency rather than in U.S. dollars. If the Fund purchases or sells local currency to execute transactions on foreign exchanges, the Fund is exposed to the risk that the value of the foreign currency will increase or decrease, which may impact the value of the Fund's portfolio holdings. Some countries have, and may continue to adopt internal economic policies that affect their currency valuations in a manner that may be disadvantageous for U.S. investors or U.S. companies seeking to do business in those countries. In addition, a country may impose formal or informal currency exchange controls. These controls may restrict or prohibit the Fund's ability to repatriate both investment capital and income, which could undermine the value of the Fund's portfolio holdings and potentially place the Fund's assets at risk of total loss. Changes in foreign currency exchange rates will affect the value of what the Fund owns and the Fund's share price. Generally, when the U.S. dollar rises in value against a foreign currency, an investment in that country loses value because that currency is worth fewer U.S. dollars. Devaluation of a currency by a country's government or banking authority also will have a significant impact on the value of any investments denominated in that currency. Currency markets generally are not as regulated as securities markets and the risk may be higher in emerging markets. Currency risks may be greater in emerging and frontier market countries than in developed market countries.
- *Depositary Receipt Risk.* Depositary receipts may be purchased through "sponsored" or "unsponsored" facilities. A sponsored facility is established jointly by the issuer of the underlying

security and a depository, whereas a depository may establish an unsponsored facility without participation by the issuer of the depository security. Holders of unsponsored depository receipts generally bear all the costs of such facilities and the depository of an unsponsored facility frequently is under no obligation to distribute shareholder communications received from the issuer of the deposited security or to pass through voting rights to the holders of such receipts of the deposited securities. ADRs, which are U.S. dollar-denominated receipts representing shares of foreign-based corporations, are issued by U.S. banks or trust companies, and entitle the holder to all dividends and capital gains that are paid out on the underlying foreign shares. GDRs, which are similar to ADRs, are shares of foreign-based corporations generally issued by international banks in one or more markets around the world. In addition, EDRs, similar to GDRs, are shares of foreign-based corporations generally issued by European banks that trade on exchanges outside of the bank's home country. Investment in ADRs, GDRs and EDRs may be less liquid than the underlying shares in their primary trading market and GDRs, many of which are issued by companies in emerging markets, may be more volatile. Fund investments in ADRs, GDRs, and EDRs are not deemed to be investments in foreign securities for purposes of the Fund's investment strategy.

- *Stapled Securities Risk.* As discussed above, a stapled security is comprised of two different securities—a unit of a trust and a share of a company—that are “stapled” together and treated as a unit at all times, including for transfer or trading. The characteristics and value of a stapled security are influenced by both underlying securities. The listing of stapled securities on a domestic or foreign exchange does not guarantee a liquid market for stapled securities.
- *REIT Risk.* Investments in REITs will be subject to the risks associated with the direct ownership of real estate. Risks commonly associated with the direct ownership of real estate include fluctuations in the value of underlying properties, defaults by borrowers or tenants, changes in interest rates and risks related to general or local economic conditions. REITs are more dependent upon specialized management skills, have limited diversification and are, therefore, generally dependent on their ability to generate cash flow to make distributions to shareholders. REITs are subject to complex tax qualification and compliance rules. In addition, REITs have their own expenses, and the Fund will indirectly bear a proportionate share of those expenses.
- *Limited Partnership and MLP Risk.* To the extent that a limited partnership's or MLP's interests are all in a particular industry, the limited partnership and/or MLP will be negatively impacted by economic events adversely impacting that industry. The risks of investing in a limited partnership or MLP are generally those involved in investing in a partnership as opposed to a corporation. For example, state law governing partnerships is often less restrictive than state law governing corporations. Accordingly, there may be fewer protections afforded to investors in a limited partnership or MLP than investors in a corporation. For example, investors in limited partnerships and MLPs may have limited voting rights or be liable under certain circumstances for amounts greater than the amount of their investment. In addition, limited partnerships and MLPs may be subject to state taxation in certain jurisdictions which will have the effect of reducing the amount of income paid by the limited partnership or MLP to its investors. In addition, conflicts of interest may exist between common unit holders, subordinated unit holders and the general partner of a limited partnership, including a conflict arising as a result of incentive distribution payments. Furthermore, investments in certain investment vehicles, such as limited partnerships and MLPs, may be illiquid. Such partnership investments may also not provide daily pricing information to their investors, which will require the Fund to employ fair value procedures to value its holdings in such investments.
- *Initial Public Offering Risk.* The market value of IPO shares may fluctuate considerably due to factors such as the absence of a prior public market, unseasoned trading, the small number of shares available for trading and limited information about the issuer. The purchase of IPO shares may involve high transaction costs. IPO shares are subject to market risk and liquidity risk. When the

Fund's asset base is small, a significant portion of the Fund's performance could be attributable to investments in IPOs, because such investments would have a magnified impact on the Fund.

- *Small- and Medium-Sized Companies Risk.* The securities of smaller or medium-sized companies may be subject to more abrupt or erratic market movements than securities of larger-sized companies or the market averages in general. In addition, such companies typically are subject to a greater degree of change in earnings and business prospects than are larger companies. Thus, to the extent a Fund invests in smaller or medium-sized companies, the Fund may be subject to greater investment risk than that assumed through investment in the equity securities of larger-sized companies.
- *Interest Rate Risk.* Bond prices generally rise when interest rates decline and decline when interest rates rise. The longer the duration of a bond, the more a change in interest rates affects the bond's price. Short-term and long-term interest rates may not move the same amount and may not move in the same direction. It is likely there will be less governmental action in the near future to maintain low interest rates, or that governmental actions will be less effective in maintaining low interest rates. The potential negative impact on fixed income-like securities from the resulting rate increases for that and other reasons could be swift and significant, including falling market values and reduced liquidity. Substantial redemptions from bond and other income funds may worsen that impact. Other types of securities also may be adversely affected from an increase in interest rates.
- *New Fund Risk.* The Fund is new with no operating history. There can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Board may determine to liquidate the Fund. The Board can liquidate the Fund without shareholder vote and, while shareholder interests will be the paramount consideration, the timing of any liquidation may not be favorable to certain individual shareholders.

PORTFOLIO HOLDINGS INFORMATION

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's SAI. Currently, disclosure of the Fund's holdings are required to be made quarterly within 60 days of the end of each fiscal quarter in the annual report and semi-annual report to Fund shareholders and in the quarterly holdings report on Form N-Q. The annual and semi-annual reports are available by contacting the First State Global Listed Infrastructures Fund, c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, Wisconsin 53201-0701, or calling 1-888-898-5040 and on the U.S. Securities and Exchange Commission's ("SEC") website at www.sec.gov. A complete description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the SAI.

MANAGEMENT OF THE FUND

Investment Adviser

First State Investments (US) LLC, located at 599 Lexington Avenue, 17th Floor, New York, New York, 10022, is the Fund's investment adviser. The Adviser is an SEC-registered investment advisory firm formed in 2014. The Adviser is part of Colonial First State Global Asset Management ("CFSGAM"), the consolidated asset management business of the Commonwealth Bank of Australia ("CBA Group"). The Adviser is 100% owned by the Commonwealth Bank of Australia, which is listed on the Australian Securities Exchange and is one of Australia's largest financial institutions. The Adviser offers investment management services to pension plans, investment companies, endowments, state and municipal organizations as well as charitable organizations.

The Adviser is responsible for the day-to-day management of the Fund in accordance with the Fund's investment objective and policies. The Adviser also furnishes the Fund with office space and certain administrative services and provides most of the personnel needed to fulfill its obligations under its advisory agreement. For its services, the Fund pays the Adviser a monthly management fee. A portion of the management fee paid to the Adviser by the Fund is used to pay the Sub-Adviser's management fee. For the Fund, the fees are calculated at the annual rate of 0.80% of average daily net assets.

A discussion regarding the basis of the Board's approval of the investment advisory agreement and investment sub-advisory agreement will be available in the Fund's semi-annual report to shareholders for the semi-annual fiscal period ended April 30, 2017.

The Fund, as a series of the Trust, does not hold itself out as related to any other series of the Trust for purposes of investment and investor services, nor does it share the same investment adviser with any other series.

Investment Sub-Adviser

Colonial First State Asset Management (Australia) Limited, located at Darling Park, Tower 1, 201 Sussex Street, Sydney NSW 2000 Australia, has been engaged as Sub-Adviser to manage the investments of the Fund. CFSAMA is an Australian domiciled investment adviser regulated by the Australian Securities and Investments Commission and registered with the SEC and is an affiliate of the Adviser.

The Sub-Adviser's Portfolio Managers

Peter Meany, Head of Global Listed Infrastructure at the Sub-Adviser, is one of the portfolio managers responsible for the day-to-day management of the Fund's portfolio. Mr. Meany began his career at the Sub-Adviser in January 2007. Prior to joining the Sub-Adviser, Mr. Meany was responsible for research coverage of the Infrastructure and Utilities sectors at Credit Suisse (Australia). Mr. Meany holds a Bachelor of Economics (Finance) from Macquarie University.

Andrew Greenup, Deputy Head of Global Listed Infrastructure at the Sub-Adviser, is one of the portfolio managers responsible for the day-to-day management of the Fund's portfolio. Mr. Greenup began his career at the Sub-Adviser in July 2005. Prior to joining the Sub-Adviser, Mr. Greenup worked at Allianz Global Investors as a senior analyst in Australian equities. Mr. Greenup holds a Bachelor Business (First Class Honours) from the Queensland University of Technology (QUT) and was awarded the QUT University medal. He has completed a Graduate Diploma in Applied Finance & Investment from the Financial Services Institute of Australasia and a Postgraduate Diploma in International Relations from Macquarie University. Andrew is an Associate of the Australian Institute of Company Directors, a Fellow of the Financial Services Institute of Australia, a member of the Australian Institute of International Affairs and sits on the MBA Course Advisory Committee for Charles Sturt University.

The SAI provides additional information about the portfolio managers' compensation, other accounts managed by the portfolio managers and their ownership of securities in the Fund.

Similarly Managed Account Performance

As of the date of this Prospectus, the Fund had not yet commenced operations. When the Fund has completed a full calendar year of investment operations, this Prospectus will include charts that show calendar year total returns, highest and lowest quarterly returns and average annual total returns (before and after taxes) compared to an appropriate benchmark index. This information could serve as a basis for investors to evaluate the Fund's performance and risks by looking at how the Fund's performance varies from year to year and how the Fund's performance compares to an appropriate broad-based securities market index.

The Fund will be managed in a manner that is substantially similar to certain other accounts (the “Composite”) managed by the Sub-Adviser. The Composite has investment objectives, policies, strategies and risks substantially similar to those of the Fund. The individuals responsible for the management of the Composite are the same individuals responsible for the management of the Fund. **You should not consider the past performance of the Composite as indicative of the future performance of the Fund.**

The following table sets forth performance data relating to the Composite which represents all accounts managed by the Sub-Adviser in a substantially similar manner to the portfolio of the Fund. The data is provided to illustrate the past performance of the Sub-Adviser and portfolio managers in managing substantially similar accounts as measured against appropriate indices, and does not represent the performance of the Fund. The Composite shown is not subject to the same types of expenses to which the Fund is subject, the Composite is rebalanced differently and less frequently than the Fund which will affect, among other things, transactions costs and may affect the comparability of performance, nor is the Composite subject to the diversification requirements, specific tax restrictions and investment limitations imposed on the Fund by the 1940 Act or Subchapter M of the Code. Consequently, the performance results for the Composite expressed below could have been adversely affected if it had been regulated as an investment company under the federal securities laws.

Performance Results	Average Annual Returns for the Periods Ended December 31, 2015 ⁽¹⁾		
	Past 1 Year	Past 5 Years	Since Inception (11/1/2007)
Global Listed Infrastructure – Global Unhedged Composite (<i>gross of fees</i>)	-3.59%	8.52%	3.59%
Global Listed Infrastructure – Global Unhedged Composite (<i>net of fees</i>)	-4.54%	7.21%	2.23%
FTSE Global Core Infrastructure 50-50 Net Index ⁽²⁾⁽³⁾	-6.71%	6.48%	0.32%

⁽¹⁾ As of December 31, 2015, the Composite was comprised of 4 accounts with approximately \$1.99 billion in assets.

⁽²⁾ From inception through May 31, 2008, the S&P Global Infrastructure Index was the benchmark for the Composite. From June 1, 2008 through March 31, 2015, the UBS Global Infrastructure & Utilities 50-50 Net Index was the benchmark for the Composite. The FTSE Global Core Infrastructure 50-50 Net Index has been the benchmark for the Composite since April 1, 2015.

⁽³⁾ The FTSE Global Core Infrastructure 50-50 Net Index represents an industry-defined interpretation of infrastructure. The index screens for infrastructure characteristics; has high investability and liquidity; reflects a global opportunity set; and offers a balanced approach to various infrastructure sub-sectors.

The performance results shown are both gross and net of all fees. The fees of the Composite differ from the fees of the Fund. The fees and expenses associated with an investment in the Composite are lower than the fees and expenses (after taking into account the Expense Cap) associated with an investment in the Class I shares of the Fund, so that if the Composite’s expenses were adjusted for these Fund expenses, its performance would have been lower.

The methodology used to calculate the total return of the Composite is different than the U.S. Securities and Exchange Commission’s prescribed methods for calculating total return for mutual funds and may produce different results.

Fund Expenses

The Fund is responsible for its own operating expenses. However, the Adviser has contractually agreed to waive all or a portion of its management fees and pay Fund expenses (excluding acquired fund fees and expenses, interest, taxes and extraordinary expenses) in order to limit Total Annual Fund Operating Expenses of the Fund to 1.09% of average daily net assets for the Fund's Class I shares, through at least February 27, 2018. The term of the Fund's operating expenses limitation agreement is indefinite, and it can only be terminated by a vote of the Board. Any waiver of management fees or payment of expenses made by the Adviser may be recouped by the Adviser in subsequent fiscal years if the Adviser so requests. The Adviser is permitted to recoup fee waivers and expense payments made in the prior three fiscal years from the date the fees were waived and Fund expenses were paid. Any such recoupment is contingent upon the subsequent review and ratification of the recouped amounts by the Board. The Fund must pay current ordinary operating expenses before the Adviser is entitled to any recoupment of fees and expenses. This recoupment may be requested by the Adviser if the aggregate amount actually paid by the Fund toward operating expenses for such fiscal year (taking into account the recoupment) does not exceed the Expense Cap.

SHAREHOLDER INFORMATION

Pricing of Fund Shares

Shares of the Fund are sold based on the NAV per share, plus any applicable sales charge, which is calculated as of the close of regular trading (generally, 4:00 p.m., Eastern Time) on each day that the New York Stock Exchange ("NYSE") is open for unrestricted business. However, the Fund's NAV may be calculated earlier if trading on the NYSE is restricted or as permitted by the SEC. The NYSE is closed on weekends and most national holidays, including New Year's Day, Martin Luther King, Jr. Day, Washington's Birthday/Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV will not be calculated on days when the NYSE is closed for trading.

Purchase and redemption requests are priced at the next NAV per share calculated after receipt of such requests. The NAV is the value of the Fund's securities, cash and other assets, minus all expenses and liabilities (assets – liabilities = NAV). NAV per share is determined by dividing NAV by the number of shares outstanding (NAV/ # of shares = NAV per share). The NAV takes into account the expenses and fees of the Fund, including management and administration fees, which are accrued daily.

In calculating the NAV, portfolio securities are valued using current market values or official closing prices, if available. Each security owned by the Fund that is listed on a securities exchange is valued at its last sale price on that exchange on the date as of which assets are valued. Where the security is listed on more than one exchange, the Fund will use the price of the exchange that it generally considers to be the principal exchange on which the security is traded.

When market quotations are not readily available, a security or other asset is valued at its fair value as determined under procedures approved by the Board. These fair value procedures will also be used to price a security when corporate events, events in the securities market and/or world events cause the Adviser to believe that a security's last sale price may not reflect its actual market value. The intended effect of using fair value pricing procedures is to ensure that the Fund is accurately priced. The Board will regularly evaluate whether the Fund's fair valuation pricing procedures continue to be appropriate in light of the specific circumstances of the Fund and the quality of prices obtained through their application by the Trust's valuation committee.

Trading in Foreign Securities

In the case of foreign securities, the occurrence of certain events after the close of foreign markets, but prior to the time the Fund's NAV per share is calculated (such as a significant surge or decline in the U.S. or other markets), often will result in an adjustment to the trading prices of foreign securities when foreign markets open on the following business day. If such events occur, the Fund will value foreign securities at fair value, taking into account such events, in calculating the NAV per share. In such cases, use of fair valuation can reduce an investor's ability to seek to profit by estimating the Fund's NAV per share in advance of the time the NAV per share is calculated. The Adviser anticipates that the Fund's portfolio holdings will be fair valued when market quotations for those holdings are considered unreliable.

How to Buy Shares

You may purchase shares of the Fund by check, by wire transfer, by electronic funds transfer through the Automated Clearing House ("ACH") network or through a bank or through one or more brokers authorized by the Fund to receive purchase orders. Please use the appropriate account application when purchasing by mail or wire. If you have any questions or need further information about how to purchase shares of the Fund, you may call a customer service representative of the Fund toll-free at 1-888-898-5040. The Fund reserves the right to reject any purchase order. For example, a purchase order may be refused if, in the Adviser's opinion, it is so large that it would disrupt the management of the Fund. Orders may also be rejected from persons believed by the Fund to be "market timers."

All purchase checks must be in U.S. dollars drawn on a domestic financial institution. The Fund will not accept payment in cash or money orders. To prevent check fraud, the Fund will not accept third party checks, U.S. Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares. The Fund is unable to accept post-dated checks or any conditional order or payment.

To buy shares of the Fund, complete an account application and send it together with your check for the amount you wish to invest in the Fund to the address below. To make additional investments once you have opened your account, write your account number on the check and send it together with the most recent confirmation statement received from the Fund's transfer agent, U.S. Bancorp Fund Services, LLC (the "Transfer Agent"). If your payment is returned for any reason, your purchase will be canceled and a \$25 fee will be assessed against your account by the Transfer Agent. You may also be responsible for any loss sustained by the Fund.

Purchases In-Kind. In addition to cash purchases, Fund shares may be purchased by tendering payment in-kind in the form of shares of stock, bonds or other securities. Any securities used to buy Fund shares must be readily marketable, their acquisition consistent with the Fund's investment objective and otherwise acceptable to the Adviser and the Board. For further information, you may call a customer service representative of the Fund toll-free at 1-888-898-5040.

In compliance with the USA PATRIOT Act of 2001, please note that the Transfer Agent will verify certain information on your account application as part of the Trust's Anti-Money Laundering Program. As requested on the account application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing only a P. O. Box will not be accepted. Please contact the Transfer Agent at 1-888-898-5040 if you need additional assistance when completing your account application.

If the Transfer Agent does not have a reasonable belief of the identity of an investor, the account application will be rejected or the investor will not be allowed to perform a transaction on the account until such information is received. The Fund may also reserve the right to close the account within five business days if clarifying information/documentation is not received.

Shares of the Fund have not been registered for sale outside of the United States. The Adviser generally does not sell shares to investors residing outside of the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses.

Purchasing Shares by Mail

Please complete the account application and mail it with your check, payable to the *First State Global Listed Infrastructure Fund*, to the Transfer Agent at the following address:

First State Global Listed Infrastructure Fund
c/o U.S. Bancorp Fund Services, LLC
P.O. Box 701
Milwaukee, Wisconsin 53201-0701

You may not send an account application via overnight delivery to a United States Postal Service post office box. If you wish to use an overnight delivery service, send your account application and check to the Transfer Agent at the following address:

First State Global Listed Infrastructure Fund
c/o U.S. Bancorp Fund Services, LLC
615 East Michigan Street, 3rd Floor
Milwaukee, Wisconsin 53202

Note: The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, a deposit in the mail or with such services, or receipt at U.S. Bancorp Fund Services, LLC's post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent.

Purchasing Shares by Telephone

If you have been authorized to perform telephone transactions (either by completing the required portion of your account application or by subsequent arrangement in writing with the Fund), and your account has been open for 15 calendar days, you may purchase additional shares by calling the Fund toll-free at 1-888-898-5040. You may not make your initial purchase of Fund shares by telephone. Telephone orders will be accepted via electronic funds transfer from your pre-designated bank account through the ACH network. You must have banking information established on your account prior to making a telephone purchase. Only bank accounts held at domestic institutions that are ACH members may be used for telephone transactions. If your order is received prior to 4:00 p.m., Eastern Time, shares will be purchased at the NAV next calculated. For security reasons, requests by telephone may be recorded. Once a telephone transaction has been placed, it cannot be cancelled or modified.

Purchasing Shares by Wire

If you are making your initial investment in the Fund, before wiring funds, the Transfer Agent must have a completed account application. You can mail or overnight deliver your account application to the Transfer Agent at the above address. Upon receipt of your completed account application, the Transfer Agent will establish an account on your behalf. Once your account is established, you may instruct your bank to send the wire. Your bank must include the name of the Fund, your name and your account number so that monies can be correctly applied. Your bank should transmit immediately available funds by wire to:

U.S. Bank National Association
777 East Wisconsin Avenue
Milwaukee, Wisconsin 53202
ABA #075000022
Credit: U.S. Bancorp Fund Services, LLC
A/C #112-952-137
FFC: [Name of Fund]
Shareholder Registration
Shareholder Account Number

If you are making a subsequent purchase, your bank should wire funds as indicated above. Before each wire purchase, you should be sure to notify the Transfer Agent. *It is essential that your bank include complete information about your account in all wire transactions.* If you have questions about how to invest by wire, you may call the Transfer Agent at 1-888-898-5040. Your bank may charge you a fee for sending a wire payment to the Fund.

Wired funds must be received prior to 4:00 p.m., Eastern Time to be eligible for same day pricing. Neither the Fund nor U.S. Bank N.A. is responsible for the consequences of delays resulting from the banking or Federal Reserve wire system or from incomplete wiring instructions.

Automatic Investment Plan

Once your account has been opened with the initial minimum investment, you may make additional purchases of Class I shares at regular intervals through the Automatic Investment Plan (“AIP”). The AIP provides a convenient method to have monies deducted from your bank account, for investment into the Fund, on a monthly or quarterly basis. In order to participate in the AIP, each purchase must be in the amount of \$100 or more, and your financial institution must be a member of the ACH network. If your bank rejects your payment, the Transfer Agent will charge a \$25 fee to your account. To begin participating in the AIP, please complete the Automatic Investment Plan section on the account application or call the Transfer Agent at 1-888-898-5040 if you have any questions. Any request to change or terminate your AIP should be submitted to the Transfer Agent at least five business days prior to the automatic investment date.

Retirement Accounts

The Fund offers prototype documents for a variety of retirement accounts for individuals and small businesses. Please call 1-888-898-5040 for information on:

- Individual Retirement Plans, including Traditional IRAs and Roth IRAs.
- Small Business Retirement Plans, including Simple IRAs and SEP IRAs.

There may be special distribution requirements for a retirement account, such as required distributions or mandatory Federal income tax withholdings. For more information, call the number listed above. You may be charged a \$15 annual account maintenance fee for each retirement account up to a maximum of \$30 annually and a \$25 fee for transferring assets to another custodian or for closing a retirement account. Fees charged by institutions may vary.

Purchasing and Selling Shares through a Broker

You may buy and sell shares of the Fund through certain brokers and financial intermediaries (and their agents) collectively, “Brokers”) that have made arrangements with the Fund to sell its shares. When you place your order with such a Broker, your order is treated as if you had placed it directly with the Transfer

Agent, and you will pay or receive the next price calculated by the Fund. The Broker holds your shares in an omnibus account in the Broker's name, and the Broker maintains your individual ownership records. The Adviser may pay the Broker for maintaining these records as well as providing other shareholder services. The Broker may charge you a fee for handling your order. The Broker is responsible for processing your order correctly and promptly, keeping you advised regarding the status of your individual account, confirming your transactions and ensuring that you receive copies of the Fund's Prospectus.

How to Sell Fund Shares

You may sell (redeem) your Fund shares on any day the Fund and the NYSE are open for business either directly to the Fund or through your financial intermediary.

In Writing

You may redeem your shares by simply sending a written request to the Transfer Agent. You should provide your account number and state whether you want all or some of your shares redeemed. The letter should be signed by all of the shareholders whose names appear on the account registration and include a signature guarantee(s), if necessary. You should send your redemption request to:

Regular Mail

First State Global Listed Infrastructure Fund
c/o U.S. Bancorp Fund Services, LLC
P.O. Box 701
Milwaukee, Wisconsin 53201-0701

Overnight Express Mail

First State Global Listed Infrastructure Fund
c/o U.S. Bancorp Fund Services, LLC
615 East Michigan Street, 3rd Floor
Milwaukee, Wisconsin 53202

NOTE: The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, a deposit in the mail or with such services, or receipt at U.S. Bancorp Fund Services, LLC's post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent.

By Telephone

If you complete the appropriate portion of the account application, you may redeem all or some of your shares, up to \$100,000, by calling the Transfer Agent at 1-888-898-5040 before the close of trading on the NYSE. This is normally 4:00 p.m., Eastern Time. Redemption proceeds will be processed on the next business day and sent to the address that appears on the Transfer Agent's records or sent via ACH or wire to a previously established bank account. The minimum amount that may be wired is \$1,000. A wire fee of \$15 will be deducted from your redemption proceeds for complete and share certain redemptions. In the case of a partial redemption, the fee will be deducted from the remaining account balance. Telephone redemptions cannot be made if you notified the Transfer Agent of a change of address within 15 calendar days before the redemption request. Shares held in IRA accounts may be redeemed by telephone at 1-888-898-5040. IRA investors will be asked whether or not to withhold taxes from any distribution.

You may request telephone redemption privileges after your account is opened by calling the Transfer Agent at 1-888-898-5040 for instructions.

You may encounter higher than usual call wait times during periods of high market activity. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to market close. If you are unable to contact the Fund by telephone, you may mail your redemption request in writing to the address noted above. Once a telephone transaction has been accepted, it may not be canceled or modified. If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person.

Payment of Redemption Proceeds

Payment of your redemption proceeds will be made promptly, but not later than seven days after the receipt of your written request in good order. If you did not purchase your shares with a federal wire payment, the Fund may delay payment of your redemption proceeds for up to 15 calendar days from purchase or until your check has cleared, whichever occurs first.

Systematic Withdrawal Plan

As another convenience, you may redeem your Class I shares through the Systematic Withdrawal Plan (“SWP”). Under the SWP, shareholders or their financial intermediaries may request that a payment drawn in a predetermined amount be sent to them on a monthly, quarterly or annual basis. In order to participate in the SWP, your account balance must be at least \$1 million and each withdrawal amount must be for a minimum of \$100. If you elect this method of redemption, the Fund will send a check directly to your address of record or will send the payment directly to your bank account via electronic funds transfer through the ACH network. For payment through the ACH network, your bank must be an ACH member and your bank account information must be previously established on your account. The redemption fee will be waived on sales of Fund shares due to participation in the SWP. The SWP may be terminated at any time by the Fund. You may also elect to terminate your participation in the SWP by communicating by telephone or in writing to the Transfer Agent no later than five days before the next scheduled withdrawal at:

Regular Mail

First State Global Listed Infrastructure Fund
c/o U.S. Bancorp Fund Services, LLC
P.O. Box 701
Milwaukee, Wisconsin 53201-0701

Overnight Express Mail

First State Global Listed Infrastructure Fund
c/o U.S. Bancorp Fund Services, LLC
615 East Michigan Street, 3rd Floor
Milwaukee, Wisconsin 53202

A withdrawal under the SWP involves a redemption of shares and may result in a gain or loss for federal income tax purposes. In addition, if the amount withdrawn exceeds the dividends credited to your account, the account ultimately may be depleted. To establish a SWP, an investor must complete the appropriate section of the account application or submit a letter of instruction after the account is opened to the appropriate address provided above. For additional information on the SWP, please call the Transfer Agent at 1-888-898-5040.

Redemption “In-Kind”

The Fund reserves the right to pay redemption proceeds to you in whole or in part by a distribution of securities from the Fund’s portfolio (a “redemption in-kind”). It is not expected that the Fund would do so except during unusual market conditions. A redemption, whether in cash or in-kind, is a taxable event to you. If the Fund pays your redemption proceeds by a distribution of securities, you could incur brokerage or other charges in converting the securities to cash and will bear any market risks associated with such securities until they are converted into cash.

Signature Guarantees

Signature guarantees, from either a Medallion program member or non-Medallion program member, will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program. *A notary public is not an acceptable signature guarantor.*

A signature guarantee is required to redeem shares in the following situations:

- When ownership is being changed on your account;

- When redemption proceeds are payable or sent to any person, address or bank account not on record;
- If a change of address was received by the Transfer Agent within the last 15 calendar days; and
- For all redemptions in excess of \$100,000 from any shareholder account.

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

In addition to the situations described above, the Fund and/or the Transfer Agent may require a signature guarantee or signature validation program stamp in other instances based on the facts and circumstances.

Other Information about Redemptions

The Fund may redeem the shares in your account if the value of your account is less than \$1,000,000 as a result of redemptions you have made. This does not apply to retirement plan or Uniform Gifts or Transfers to Minors Act accounts. You will be notified that the value of your account is less than \$1,000,000 before the Fund makes an involuntary redemption. You will then have 30 days in which to make an additional investment to bring the value of your account to at least \$1,000,000 before the Fund takes any action.

DIVIDENDS AND DISTRIBUTIONS

The Fund will make distributions of dividends and capital gains, if any, at least annually, typically in December. The Fund may make an additional payment of dividends or distributions of capital gains if it deems it desirable at any other time of the year.

All distributions will be reinvested in the Fund shares unless you choose one of the following options: (1) receive dividends in cash while reinvesting capital gain distributions in additional Fund shares; (2) reinvest dividends in additional Fund shares and receive capital gains in cash; or (3) receive all distributions in cash. Dividends are taxable whether reinvested in additional shares or received in cash.

If you elect to receive distributions in cash and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months, the Fund reserves the right to reinvest the distribution check in your account, at the Fund's current NAV per share, and to reinvest all subsequent distributions. If you wish to change your distribution option, notify the Transfer Agent in writing or by telephone at least 5 days in advance of the payment date for the distribution.

Any dividend or capital gain distribution paid by the Fund has the effect of reducing the NAV per share on the ex-dividend date by the amount of the dividend or capital gain distribution. You should note that a dividend or capital gain distribution paid on shares purchased shortly before that dividend or capital gain distribution was declared will be subject to income taxes even though the dividend or capital gain distribution represents, in an economic sense, a partial return of capital to you.

TOOLS TO COMBAT FREQUENT TRANSACTIONS

The Board has adopted policies and procedures to prevent frequent transactions in the Fund. The Fund discourages excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm the Fund's performance. The Fund takes steps to reduce the frequency and effect of these activities in the Fund. These steps include monitoring trading practices and using fair value pricing. Although these efforts (which are described in more detail below) are designed to

discourage abusive trading practices, these tools cannot eliminate the possibility that such activity may occur. Further, while the Fund makes efforts to identify and restrict frequent trading, the Fund receives purchase and sale orders through financial intermediaries and cannot always know or detect frequent trading that may be facilitated by the use of intermediaries or the use of group or omnibus accounts by those intermediaries. The Fund seeks to exercise its judgment in implementing these tools to the best of its ability in a manner that the Fund believes is consistent with shareholder interests.

Monitoring Trading Practices. The Fund monitors selected trades in an effort to detect excessive short-term trading activities. If, as a result of this monitoring, the Fund believes that a shareholder has engaged in excessive short-term trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder's accounts. In making such judgments, the Fund seeks to act in a manner that it believes is consistent with the best interests of shareholders. Due to the complexity and subjectivity involved in identifying abusive trading activity and the volume of shareholder transactions the Fund handles, there can be no assurance that the Fund's efforts will identify all trades or trading practices that may be considered abusive. In addition, the Fund's ability to monitor trades that are placed by individual shareholders within group or omnibus accounts maintained by financial intermediaries is limited because the Fund does not have simultaneous access to the underlying shareholder account information.

In compliance with Rule 22c-2 of the 1940 Act, the Fund's distributor, Quasar Distributors, LLC (the "Distributor") on behalf of the Fund, has entered into written agreements with each of the Fund's financial intermediaries, under which the intermediary must, upon request, provide the Fund with certain shareholder and identity trading information so that the Fund can enforce its market timing policies.

Redemption Fee

The Fund charges a 2.00% redemption fee on the redemption of Fund shares held for 30 calendar days or less. This fee is imposed in order to help offset the transaction costs and administrative expenses associated with the activities of short-term "market timers" that engage in the frequent purchase and sale of Fund shares. The FIFO method is used to determine the holding period; this means that if you bought shares on different days, the shares purchased first will be redeemed first for the purpose of determining whether the redemption fee applies. The redemption fee is deducted from your proceeds and is retained by the Fund for the benefit of its long-term shareholders. Redemption fees will not apply to shares acquired through the reinvested distributions or on sales of Fund shares due to participation in the Systematic Withdrawal Plan. Although the Fund has the goal of applying this redemption fee to most such redemptions, the redemption fee may not apply in certain circumstances where it is not currently practicable for the Fund to impose the fee, such as redemptions of shares held in certain omnibus accounts or retirement plans.

The Fund's redemption fee will not apply to broker wrap-fee program accounts. Additionally, the Fund's redemption fee will not apply to the following types of transactions:

- premature distributions from retirement accounts due to the disability or health of the shareholder;
- minimum required distributions from retirement accounts;
- redemptions resulting in the settlement of an estate due to the death of the shareholder;
- shares acquired through reinvestment of distributions (dividends and capital gains); and
- redemptions initiated through an automatic withdrawal plan.

Fair Value Pricing. The Fund employs fair value pricing selectively to ensure greater accuracy in its

daily NAV and to prevent dilution by frequent traders or market timers who seek to take advantage of temporary market anomalies. The Board has developed procedures which utilize fair value pricing when reliable market quotations are not readily available or the Fund's pricing service does not provide a valuation (or provides a valuation that in the judgment of the Adviser to the Fund does not represent the security's fair value), or when, in the judgment of the Adviser, events have rendered the market value unreliable. Valuing securities at fair value involves reliance on judgment. Fair value determinations are made in good faith in accordance with procedures adopted by the Board and are reviewed annually by the Board. There can be no assurance that the Fund will obtain the fair value assigned to a security if it were to sell the security at approximately the time at which the Fund determines its NAV per share.

Fair value pricing may be applied to non-U.S. securities. The trading hours for most non-U.S. securities end prior to the close of the NYSE, the time that the Fund's NAV is calculated. The occurrence of certain events after the close of non-U.S. markets, but prior to the close of the NYSE (such as a significant surge or decline in the U.S. market) often will result in an adjustment to the trading prices of non-U.S. securities when non-U.S. markets open on the following business day. If such events occur, the Fund may value non-U.S. securities at fair value, taking into account such events, when it calculates its NAV. Other types of securities that the Fund may hold for which fair value pricing might be required include, but are not limited to: (a) investments which are infrequently traded and/or the market price of which the Adviser believes may be stale; (b) illiquid securities, including "restricted" securities and private placements for which there is no public market; (c) securities of an issuer that has entered into a restructuring; (d) securities whose trading has been halted or suspended; and (e) fixed income securities that have gone into default and for which there is not a current market value quotation.

More detailed information regarding fair value pricing can be found under the heading titled, "Pricing of Fund Shares."

TAX CONSEQUENCES

The Fund has elected and intends to continue to qualify to be taxed as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986 (the "Code"). As a regulated investment company, the Fund will not be subject to federal income tax if it distributes its income as required by the tax law and satisfies certain other requirements that are described in the SAI.

The Fund typically makes distributions of dividends and capital gains in December. Dividends are taxable to you as ordinary income. The rate you pay on capital gain distributions will depend on how long the Fund held the securities that generated the gain, not on how long you owned your Fund shares. You will be taxed in the same manner whether you receive your dividends and capital gain distributions in cash or reinvest them in additional Fund shares. A portion of ordinary income dividends paid by the Fund may be qualified dividend income eligible for taxation at long-term capital gain rates for individual investors, provided that certain holding period and other requirements are met. However, eligibility for the qualified dividend rate depends on the actual investments of the Fund and there is no assurance that any of the Fund's investment will produce income eligible for this preferential rate. An additional federal tax at the rate of 3.8% may apply to net investment income, which generally includes dividends from the Fund and gain on sales of Fund shares, of shareholders with adjusted gross incomes over \$200,000 for single filers and \$250,000 for married joint filers. Although distributions generally are taxable when received, certain distributions declared in October, November, or December to shareholders of record on a specified date in such a month but paid in the following January are taxable as if received the prior December. Distributions are includable in alternative minimum taxable income in computing a shareholder's liability for the alternative minimum tax.

By law, the Fund must withhold as backup withholding a percentage (currently 28%) of your taxable distributions and redemption proceeds if you do not provide your correct Social Security or taxpayer identification number and certify that you are not subject to backup withholding, or if the Internal Revenue Service instructs the Fund to do so.

If you sell your Fund shares, it is a taxable event for you. Depending on the purchase and sale price of the shares you sell, you may have a gain or a loss on the transaction. It will be a capital gain or loss if you hold your shares in the Fund as a capital asset. Long-term capital gains are subject to a maximum federal income tax rate of 20% (not including the 3.8% net investment income tax). You are responsible for any tax liabilities generated by your transaction. The Code limits the deductibility of capital losses in certain circumstances.

Unrelated Business Taxable Income (“UBTI”)

Income of a registered investment company that would be UBTI if earned directly by a tax-exempt entity generally will not constitute UBTI when distributed to a tax-exempt shareholder of the registered investment company. Notwithstanding this blocking effect, a tax-exempt shareholder could realize UBTI where the registered investment company receives excess inclusion income from a real estate mortgage investment conduit (“REMIC”) or a real estate investment trust (“REIT”) that is invested in a taxable mortgage pool. The Fund does not intend to invest in REMICs or REITs that have a history of paying excess inclusion income that may give rise to UBTI for tax-exempt shareholders.

A tax-exempt shareholder could also realize UBTI by virtue of its investment in the Fund if shares in the Fund constitute debt-financed property in the hands of the tax-exempt shareholder as defined in Section 514(b) of the Code.

There is no requirement that the Fund take into consideration any tax implications when implementing its investment strategy. Shareholders should note that the Fund may make taxable distributions of income and capital gains even when share values have declined.

Additional information concerning the taxation of the Fund and its shareholders is contained in the SAI. You should consult your own tax advisor concerning federal, state and local taxation of distributions from the Fund. Schiff Hardin has expressed no opinion in respect thereof.

DISTRIBUTION OF FUND SHARES

Distributor

Quasar Distributors, LLC (“Quasar”), an affiliate of the Fund’s Transfer Agent, is located at 615 East Michigan Street, 4th floor, Milwaukee, Wisconsin 53202, and is the distributor for the shares of the Fund. Quasar is a registered broker-dealer and a member of the Financial Industry Regulatory Authority, Inc. Shares of the Fund are offered on a continuous basis.

Shareholder Servicing Plan

Under a Shareholder Servicing Plan, Class I will pay service fees of up to 0.10% of average daily net assets to intermediaries such as banks, broker-dealers, financial advisers or other financial institutions, for sub-administration, sub-transfer agency and other shareholder services associated with shareholders whose shares are held of record in omnibus, other group accounts or accounts traded through registered securities clearing agents. As these fees are paid out of the Fund’s assets, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

Service Fees – Other Payments to Third Parties

The Fund may pay service fees to intermediaries such as banks, broker-dealers, financial advisors or other financial institutions, including affiliates of the Adviser, for sub-administration, sub-transfer agency and other shareholder services associated with shareholders whose shares are held of record in omnibus, other group accounts or accounts traded through registered securities clearing agents.

The Adviser, out of its own resources, and without additional cost to the Fund or its shareholders, may provide additional cash payments or non-cash compensation to intermediaries who sell shares of the Fund. These additional cash payments are generally made to intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the intermediary. Cash compensation may also be paid to intermediaries for inclusion of the Fund on a sales list, including a preferred or select sales list, in other sales programs or as an expense reimbursement in cases where the intermediary provides shareholder services to the Fund's shareholders. The Adviser may also pay cash compensation in the form of finder's fees that vary depending on the Fund and the dollar amount of the shares sold.

Description of Share Class

The Fund has registered, and this Prospectus offers, one class of shares – Class I shares. Class I shares are charged a 0.10% shareholder servicing plan fee. Class I shares do not have a front-end sales charge or contingent deferred sales charge (“CDSC”) or a Rule 12b-1 distribution and service fee. If you purchase Class I shares, you will pay the NAV per share next determined after your order is received.

More about Class I Shares

Listed below are persons eligible to, though not limited to, invest in Class I shares:

1. Institutional investors including banks, savings institutions, credit unions and other financial institutions, pension, profit sharing and employee benefit plans and trusts, insurance companies, investment companies, investment advisors, broker-dealers and financial advisors acting for their own accounts or for the accounts of their clients;
2. Full-time employees, agents, employees of agents, retirees and directors (trustees), and members of their families (*i.e.*, parent, child, spouse, domestic partner, sibling, set or adopted relationships, grandparent, grandchild and UTMA accounts naming qualifying persons) of the Adviser and its affiliated companies; and
3. Shareholders investing through accounts at First State Investments (US) LLC and its affiliated companies.

Minimum Investments

You may open a Fund account with a minimum initial investment as listed in the table below.

	To Open Your Account	To Add to Your Account
Regular Accounts Class I	\$1 million	Any Amount

The Fund's minimum investment and eligibility requirements may be waived from time to time by the Adviser, and for the following types of shareholders:

- current and retired employees, directors/trustees and officers of the Trust, the Adviser and its affiliates and certain family members of each of them (*i.e.*, spouse, domestic partner, child, parent, sibling, grandchild and grandparent, in each case including in-law, step and adoptive relationships);

- any trust, pension, profit sharing or other benefit plan for current and retired employees, directors/trustees and officers of the Adviser and its affiliates;
- current employees of the Transfer Agent, broker-dealers who act as selling agents for the Fund, intermediaries that have marketing agreements in place with the Adviser and the immediate family members of any of them;
- registered investment advisers who buy through a broker-dealer or service agent who has entered into an agreement with the Fund's distributor;
- qualified broker-dealers who have entered into an agreement with the Fund's distributor; and
- existing clients of the Adviser, their employees and immediate family members of such employees.

GENERAL POLICIES

Some of the following policies are mentioned above. In general, the Fund reserves the right to:

- Refuse, change, discontinue, or temporarily suspend account services, including purchase, or telephone redemption privileges, for any reason;
- Reject any purchase request for any reason. Generally, the Fund will do this if the purchase is disruptive to the efficient management of the Fund (due to the timing of the investment or an investor's history of excessive trading);
- Redeem all shares in your account if your balance falls below the Fund's minimum initial investment requirement due to redemption activity. If, within 30 days of the Fund's written request, you have not increased your account balance, you may be required to redeem your shares. The Fund will not require you to redeem shares if the value of your account drops below the investment minimum due to fluctuations of NAV;
- Delay paying redemption proceeds for up to seven calendar days after receiving a request, if an earlier payment could adversely affect the Fund; and
- Reject any purchase or redemption request that does not contain all required documentation.

Your Broker may establish policies that differ from those of the Fund. For example, the organization may charge transaction fees, set higher minimum investments, or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Contact your Broker for details.

Inactive Accounts

Your mutual fund account may be transferred to your state of residence if no activity occurs within your account during the "inactivity period" specified in your state's abandoned property laws.

Lost Shareholder

It is important that the Fund maintain a correct address for each investor. An incorrect address may cause an investor's account statements and other mailings to be returned to the Fund. Based upon statutory requirements for returned mail, the Fund will attempt to locate the investor or rightful owner of the account. If the Fund is unable to locate the investor, then it will determine whether the investor's account can legally be considered abandoned. The Fund is legally obligated to escheat (or transfer) abandoned property to the appropriate state's unclaimed property administrator in accordance with statutory requirements. The investor's last known address of record determines which state has jurisdiction.

Fund Mailings

Statements and reports that the Fund will send to you include the following:

- Confirmation statements (after every transaction that affects your account balance or your account registration);
- Annual and semi-annual shareholder reports (every six months); and
- Quarterly account statements.

Householding

In an effort to decrease costs, the Fund intends to reduce the number of duplicate prospectuses, annual and semi-annual reports, proxy statements and other similar documents you receive by sending only one copy of each to those addresses shared by two or more accounts and to shareholders the Transfer Agent reasonably believes are from the same family or household. Once implemented, if you would like to discontinue householding for your accounts, please call toll-free at 1-888-898-5040 to request individual copies of these documents. Once the Transfer Agent receives notice to stop householding, the Transfer Agent will begin sending individual copies thirty days after receiving your request. This policy does not apply to account statements.

FINANCIAL HIGHLIGHTS

Financial highlights are not available at this time because the Fund had not commenced operations prior to the date of this Prospectus.

PRIVACY NOTICE

The Fund collects non-public information about you from the following sources:

- Information we receive about you on applications or other forms;
- Information you give us orally; and/or
- Information about your transactions with us or others.

We do not disclose any non-public personal information about our customers or former customers without the customer's authorization, except as permitted by law or in response to inquiries from governmental authorities. We may share information with affiliated and unaffiliated third parties with whom we have contracts for servicing the Fund. We will provide unaffiliated third parties with only the information necessary to carry out their assigned responsibilities. We maintain physical, electronic and procedural safeguards to guard your non-public personal information and require third parties to treat your personal information with the same high degree of confidentiality.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank, or trust company, the privacy policy of your financial intermediary would govern how your non-public personal information would be shared by those entities with unaffiliated third parties.
